

# Double quarter pallet lifter DLQ200

Now you can easily handle two quarter pallets at the same time

The double quarter pallet lifter with the capacity of 200 kg is an indispensable and very efficient partner, when you need to lift quarter pallets to/from a EUR pallet.

DLQ200 has two unique features:

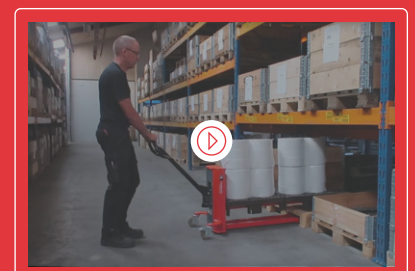

- First of all, it makes it easy for you to handle two quarter pallets at the same time.
- Secondly, it can solve your issue with reaching the second quarter pallet at the far end of the EUR pallet. The situation where you normally need to move the EUR pallet and pick the quarter pallet from the other side.
